DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 8-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Abdoulin (6,026,005).

Abdoulin discloses a single ended forward converter with synchronous rectification and delay circuit in phase-locked loop in Figs. 3, 4, 7 and 8. A detection terminal for detecting a synchronous detection signal from a secondary winding of a transformer (X10), a positive-sense terminal (IN1), a negative-sense terminal (IN2), a ground terminal (GND), a power terminal connected to a positive output end of said forward power converter for receiving a supply voltage (VDD), a timing terminal connected to a programmable timing resistor (RF), a first output terminal for turning on/off a first synchronous rectifier (G1), and a second output terminal for turning on/off a second synchronous rectifier (G2).

Allowable Subject Matter

3. Claims 11-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. The following is a statement of reasons for the indication of allowable subject matter: None of the cited prior art teach or disclose a controller with three comparator and three current sources with the claimed connection or a controller with a single pulse generator, two flip-flop circuits and two AND gates with the claimed connection.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
